

## Press Release

---

### Chapter26 & Ensara announce composite applications partnership at Plumtree's EMEA User conference - Odyssey 2005

**Plumtree EMEA User Conference – May 18, 2005** — Chapter26 & Ensara announce partnership to bring tailored composite business applications to global clients through Plumtree Portal.

Chapter26, the Specialist Solutions Provider which design & implement content centric collaborative business environments have forged close ties with webservice integration software vendor Ensara. Ensara products bring the rich functionality of products from vendors such as Opentext Corp and Cognos Inc to the Portal user community. As a result of the partnership, Chapter26 are now able to offer the seamless integration of document, business intelligence, collaboration and access control provided by Ensara products as a tailored solution to the customers specific needs.

“This partnership brings Plumtree customers the ability to open-up secure, integrated access to key sources of their Enterprise Content with the minimum of deployment and budget risk. - commented Mark Ward, Managing Director of Chapter26. “We pride ourselves on the quality and effectiveness of the solutions we provide. By adding the Ensara products to our tool set we can now bring even greater functional and content integration to our customers Portal deployments”

#### About Ensara:

Utilizing the latest accepted open standards, Ensara products are designed to radically reduce the cost and enhance the benefits of any Portal deployment. Built on a highly customizable set of open technologies, Ensara products can be tailored to support specific business needs without entailing a lengthy or costly development process.

**Ensara Plumtree – Livelink Crawler & Portlet Suite** : The Ensara Livelink suite enables Portal users to gain seamless access to the full functionality of Livelink and the Business Intelligence held within. The Ensara Livelink Crawler Web Service and the Ensara Livelink Portlet Suite work hand in hand to add rich features to the Portal whilst providing unified search, content, document and knowledge management functionality to the user community.

**Ensara Plumtree – Cognos Portlet Suite** : The Ensara Cognos Integration Suite enables controlled access via the Plumtree portal to the business critical data and functionality held within Cubes, Powerplay, Upfront and Impromptu. Building on this strength of out of the box integration, Ensara will also be shipping tight ReportNet integration capabilities in its forthcoming release.

#### The Ensara product line currently offers integrations for the following vendor product versions:

- Plumtree Corporate Portal v4.5WS and v5.0
- Open Text Livelink Application Server v9.0, v9.1 and LAPI v9.1.0.3
- Cognos Release 7 MR1 and MR2

Ensara products are currently at work in global Pharmaceuticals, Financial Services, Consultancy and Publishing organizations providing the essential glue between the ubiquity of the Portal and the business precision of backend process and Document Management applications.
